

MUSIC, VISUAL AND PERFORMING ARTS

→ BACHELOR OF MUSIC THEATRE (NEW IN 2009)

BACHELOR OF MUSIC THEATRE

The Bachelor of Music Theatre is designed to develop creative music theatre performers who are sufficiently flexible to contribute to the changing needs of the artistic community. They will be creative leaders who can generate, develop and perform new work.

The course comprises an intensive skills building program throughout the three years across the principal disciplines of singing, acting and dance. Students will be able to apply these skills in practice in fully staged musical theatre shows in the latter stages of the course, in addition to experiencing the collaboration involved in staging new works. The course offers significant industry contact through workshops and master classes, an Artist in Residence Program and the breadth of professional performing artists teaching in the course.

WHY CHOOSE THE BACHELOR OF MUSIC THEATRE AT MELBOURNE?

Students will develop practical skills across the three disciplines involved in Music Theatre, and will gain understanding of the requirements of period, style and dramatic context. Whilst singing, acting and dance are each treated and taught as separate disciplines, students will learn to always consider their relationship to each other in Music Theatre and their combined contribution to storytelling.
